Note4: Average launch power, each lane (min) is informative and not the principal indicator of signal strength. A transmitter with launch power below this value cannot be compliant; however, a value above this does not ensure compliance.

Note5: Even if the TDP < 1.0dB, the OMA (min) must exceed 0.5 dBm.

Note6: Measured at 103Gbps & BER = $5*10^{-5}$.

Note7: Transmitter reflectance is defined looking into the transmitter.

Note8: Vertical eye closure penalty, stressed eye J2 Jitter, stressed eye J4 Jitter, and SRS eye mask definition are test conditions for measuring stressed receiver sensitivity. They are not characteristics of the receiver.

Note9: Average receive power, each lane (min) is informative and not the principal indicator of signal strength. A received power below this value cannot be compliant; however, a value above this does not ensure compliance.

Note10: The receiver shall be able to tolerate, without damage, continuous exposure to an optical signal having this average power level.

Note11: Receiver sensitivity (OMA), each lane (max) at $5*10^{-5}$ BER is a normative specification.

Note12: Measured with conformance test signal at TP3 for BER = $5*10^{-5}$.

Note13: Measured at 103Gbps & pre FEC BER = $1*10^{-12}$.

Note14: Measured with conformance test signal at TP3 for BER = $1*10^{-12}$.

Note15: Measured at 112Gbps & pre FEC BER = $1.8*10^{-4}$.

Note16: Filtered, measured with a PRBS 2^{31}-1 test pattern @27.95Gbps.

Note17: Specified at a pre FEC BER of $1.8*10^{-4}$.

1: GND is the symbol for signal and supply (power) common for the QSFP28 module. All are common within the QSFP28 module and all module voltages are referenced to this potential unless otherwise noted. Connect these directly to the host board signal-common ground plane.

2: Vcc Rx, Vcc1 and Vcc Tx are the receiver and transmitter power supplies and shall be applied concurrently. Vcc Rx Vcc1 and Vcc Tx may be internally connected within the QSFP28 Module in any combination. The connector pins are each rated for a maximum current of 1000mA.
